

Table A – Results of Internal Review Committee

Date of Review/Recommendation: April 7, 2006

Water Body Under Evaluation:

Identification #: 3105
Name: Lateral Main Ditch #2 (P)
Length of Segment: 11.5 miles
County (ies): Stoddard

Use Attainability Analysis Study:

Identification #: 416
Submitter: Environmental Resources Coalition
Date(s) Conducted: April 15, June 2, October 27, & signed December 22, 2005
Date Received: December 22, 2006
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Completeness Check:

All Required Information Included?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Correct Forms Used?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Forms Signed and Dated?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Comments:		

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments: Seven interviews were conducted.

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The survey occurred in April, June, and October 2005 and no WBCR was observed. The stream did not meet the maximum or the average depth criteria at any of the five sites evaluated. Due to the overall shallow depth of the stream and interviews stating no one swims there (because of snakes and shallowness), the committee recommends that the WBCR designation be removed.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive

Committee Members: Mary Clark, Ann Crawford, Anne Peery
